

Remote Breath Pro is ideal for:

- Lower-risk clients
- Pretrial and probation
- Community corrections
- Domestic violence and family court cases

Portable and durable alcohol testing built for community corrections.

SCRAM Remote Breath® Pro provides portable breath alcohol monitoring to ensure clients comply with court orders. The easy-to-use device is ideal for low-risk clients or those who have earned less intensive testing and monitoring.

Enhanced Facial Guidance and Authentication Software

- Provides visual cues ensuring face is aligned during client testing
- Increases client compliance by reducing the need for multiple tests
- Decreases officer photo manual matching by 90-95%

Portable and Discreet

This small and durable device adapts to clients' everyday life—enabling them to take tests anytime, anywhere. Includes a fitted carrying case and both standard wall outlet and USB charging ability.

Additional key features:

- GPS location with taken **and** missed tests
- Immediate notification of BrAC and client verification results
- Configurable scheduled and random testing schedules and testing grace periods
- Stores up to 40,000 test results when not in cell service and forwards upon return
- Optional testing reminders via text message

Integrated Software & Mobile Solutions

The SCRAM TouchPoint® mobile app

- Improves client engagement while making SCRAM alcohol monitoring programs more efficient
- Secure, real-time messaging, automated equipment reminders, and mobile check-ins help clients successfully complete the terms of their supervision

SCRAM Optix™

- Manage entire SCRAM electronic monitoring caseload with a single login
- Search for clients, view and work alerts, and run advanced reports and interactive program analytics

Advanced Analytics & Reports

Dynamic and Interactive Program Insights

- Integrated analytics powered by Microsoft® PowerBI® provide comprehensive, actionable reports
- Filter by criteria such as monitoring type, date ranges, and locations to visualize performance across all caseloads
- Generate and view a variety of reports including client monitoring and compliance, inventory, alert analysis, and more

Customer Support

Providing Help 24/7

- Customer support via phone, email, or online chat available around the clock
- On-site equipment training and installation for active clients and new programs
- Automated visibility into inventory with built-in tools to manage devices
